SUMMARY

Currently pursuing BCA with hands-on experience in Angular, JavaScript, and modern frontend tools. Built projects including an Angular web app and a shoes store web app, and recently participated in a hackathon. Quick learner with strong teamwork skills, aiming to apply frontend knowledge with backend basics and gain real-world development experience.

WORK EXPERIENCE

Lumbini Chau Bhandar

May 2025 - July 2025

- Collaborated with a teammate to build a full-stack application, focused on CRUD.
- Implemented responsive UI, integrated APIs from the backend (Express, Mongo DB), and enhanced user experience.

BG Shoes House

Feb 2025 - March 2025

- Created a small e-commerce style project to strengthen core JavaScript fundamentals.

Kanuni Shiksha (Hackathon Project)

Sep 19 2025 - Sep 21 2025

- Collaborated with a team to build a functional product within 48 hours.
- Contributed to the frontend development using Next.js.

Personal Project (Next js | Tailwind)

Aug 2025 - Current

- Designing and developing the frontend part of a web app using Next.js to provide students with transparent information on visa services, aiming to reduce or eliminate consultancy hidden fees.
- Developed authentication, landing page and school listing page.
